

Pullman city government, businesses and the community at large have long been committed to sustainability, recognizing that a healthy environment provides the foundation for life. The city's goals and ongoing community efforts are reflected in

improving energy efficiencies

- [Pullman Smart Grid Demonstration Project](#)
- [City Green Team](#)

protecting and conserving water resources

- [toilet rebates](#)
- [water-saving devices](#)
- [stormwater services](#)
- [xeriscaping](#)
- [smart irrigation](#)

reducing pollution

- [Tree City USA](#)
- ['walk-to-work' community](#)

- [Downtown Pullman Riverwalk project](#)
- [Diesel Retrofit Program](#)

reducing and reusing waste

- [annual November leaf collection](#)
- [recycling and e-cycling](#)
- [reusable bags](#)

Sustainable WSU

- presentation to Pullman City Council on June 7, 2011: [Sustainable WSU](#)
