REGULAR AGENDA

Motions

Claim for Dam-
ages - Zhao

4. Mayor Johnson announced that this item had been removed from the Consent Agenda at the request of Councilmember Waldrop. Councilmember Waldrop noted that in the 2007 risk profile for Pullman Transit the figures show that Pullman Transit's loss statistics seem unfavorable and he would like to have a future discussion on the risk profile of the Transit system and a summary of the 2007 Transit system accidents.

Councilmember Waldrop moved, Councilmember Heath seconded to refer a Claim for Damages submitted by Huan Zhao for the sum of \$187.10 to the Washington State Transit Insurance Pool (WSTIP). The motion carried unanimously.

Well No. 8
Complete

6. Mayor Johnson announced that this item had been removed from the Consent Agenda at the request of Councilmember Waldrop. Councilmember Waldrop wanted to point out that the contract for Well No. 8 drilling was 10 percent under the engineer's estimate. Councilmember Waldrop moved, Councilmember Benjamin seconded to accept as complete Contract No. 04-13, Well No. 8.

Public Meeting

Business Registration

14. Mayor Johnson announced that a public meeting is scheduled on business registration. City Supervisor Sherman presented a staff report which included a description of the history of the issue, reasons for implementing business registration, and summaries of the data that has been provided in the agenda packet on the partnership with the State Master Licensing Service and the draft ordinance. Councilmember Bloom asked for clarification on exemptions on mobile businesses. City Supervisor Sherman responded. Councilmember Heath asked for comments regarding the cost benefit analysis. Finance Director Woo responded. Councilmember Paul, Councilmember Bloom, and Finance Director Woo discussed the blending of the Master License Service with an internal registration process for landlords and itinerant businesses and the \$20.00 proposed fee. Councilmember Paul suggested that a higher setup fee be charged in the first year to help with implementation costs. Councilmember Bloom asked for clarification on the initial fee charged by the Master License Service. Finance Director Woo responded.

Mayor Johnson opened the public meeting. Alice Schroeder, 145 SW Arbor, president of the League of Women Voters, spoke in support of business registration because it is a safety issue and promotes a liveable community. Ms. Schroeder stated that the fee seems reasonable and supports public education on the issue.

Alex Hammond, 1110 NE Indiana, member of the College Hill Association, stated he appreciated that the City Council is considering the issue, that the fee seems reasonable, and that he was surprised that there is no obligation for the landlord to notify the City of their rental businesses.

Eileen McCall asked if rentals were a good fit with business registration and noted other types of businesses that might not fit under business registration. Ms. McCall stated that requiring emergency contact information for rentals may create a different class for rental residents. Councilmember Heath noted that landlords have a certain level of duty-of-care that is much different than a normal residents. Ms. McCall responded. City Attorney McAloon and

Councilmember Bloom responded to Ms. McCall's questions by referring to the proposed definition of a business and a list of the proposed exemptions to business registration.

Dave Gibney, 760 Reaney Way, stated that there are good reasons for implementing a business registration but he had concerns with the proposed fee level. Finance Director Woo responded.

Jo Mark, 1165 S. Grand, asked if additional fees could be charged to those businesses that have violations to the City Codes or that require additional emergency responses. City Attorney McAloon responded.

Councilmember Bloom stated that he supported business registration that would provide the emergency contact information but he was not interested in business registration if it requires additional enforcement upon businesses.

Anita Hornback, 405 NW North, stated she would like to see the fee structure based on something other than per location, that she did not support business registration for owner-occupied rentals, and asked how many emergency contact numbers could be provided. Finance Director Woo and Police Chief Weatherly responded.

Councilmember Heath stated she would like to see a field for ownership and management on the rental property application for registration. Dave Gibney asked if the most recent Tim Eyman initiative would apply to the proposed fee. City Attorney McAloon responded.

City Supervisor Sherman led a discussion on Council direction for City staff to draft the business registration ordinance which resulted in the City Council concurring to partner with the Master License Service, that \$20.00 was an appropriate fee, the definition for a business and the exemptions would include home occupations as a business and would exempt owner-occupied rental properties and that penalties would be incorporated into the ordinance for noncompliance.

Ordinances

Ordinance No.	15.	Mayor Johnson announced that an ordinance had
08-6 - Fighting		been prepared relating to public safety and

Ordinance

morals. City Attorney McAloon presented the staff report which included a summary of the ordinance. Councilmember Heath and City Attorney McAloon discussed how the civil infractions within the proposed ordinance would impact the potential criminal charges.

Resolution No. R-35-08 by title only reads as follows:

A RESOLUTION APPROVING THE PRELIMINARY PLAT OF THE LOST TRAIL TOWNHOMES SUBDIVISION.

Councilmember Benjamin moved, Councilmember Paul seconded to adopt the resolution subject to three conditions. The motion carried unanimously.

Discussion

Downtown
Parking

20. Mayor Johnson announced that a discussion is scheduled on downtown parking. City Supervisor Sherman made opening comments and noted the letters that had been received from citizens. Planning Director Dickinson presented a report that included a description of the proposed code changes. Councilmember Bloom asked Mr. Yates why certain downtown business owners were not represented in his letter from the Downtown Pullman Business Development Association. Mike Yates, 107 S. Grand, addressed Councilmember Bloom's question. Councilmember Paul asked for a further explanation on the first option presented in the letter from Justin Rogers. Planning Director Dickinson and Councilmember Bloom

responded. Councilmember Heath and Mike Yates discussed the timing of the receipt of the letter from the Downtown Pullman Business Development Association and the overall process for making changes to the Central Business District.

Councilmember Bloom stated he thought the biggest issue for the downtown parking problem was the lack of enforcement and that enforcement should be given a chance to make parking work in the downtown area. Mayor Johnson stated he thought the Spot Shop Parking Lot needed to be addressed.

Councilmember Heath stated she supported residential development in the downtown area but thought there was a limitation on that type of development due to the limited space available for parking and that the City needs to adopt standards so the Board of Adjustment can make proper decisions. Councilmember Waldrop asked for clarification on Attachment "A" in regard to the two spaces per dwelling unit, that any fee provided to the City should be realistic, and that he did not support the use of a parking permit system in the public lots in the core downtown area. Councilmember Bloom stated that imposing additional requirements would not support downtown businesses and that parking enforcement should be given a chance to work. Councilmember Waldrop and Councilmember Paul stated they agreed with Councilmember Bloom. Councilmember Benjamin asked if the requirements for parking in developments with ten dwelling units or more would impact any current or proposed projects in the downtown area. Planning Director Dickinson responded. Councilmember Benjamin asked if the business community had raised any concerns regarding the parking requirements for ten or more dwelling units. Planning Director Dickinson responded.

Councilmember Benjamin noted that the code changes seem to provide the neighboring residents with some peace of mind and asked if there were any tools other than code changes that would help protect the residents. Planning Director Dickinson responded. Councilmember Weller stated he agreed with Councilmember Bloom's position that parking enforcement should be given a chance to work. Mayor Johnson, Public Works Director Workman, and City Supervisor Sherman described past efforts in regard to parking restrictions and the Spot Shop Parking Lot and described potential parking restrictions that could be considered. Councilmember Benjamin stated that

the Spot Shop Parking Lot is currently used as a park-and-ride and that changes with the lot could push that parking into the residential areas. Councilmember Bloom suggested the City talk to WSU and Pullman Transit to use the under utilized Steam Plant Parking Lot as a park-and-ride. City Supervisor Sherman responded.

Councilmember Benjamin stated he had concerns with delaying the decision on downtown parking for a year and suggested a shorter time frame. Councilmember Heath stated that parking enforcement won't solve the parking problems of large residential developments in the downtown areas. Councilmember Bloom responded. Councilmember Waldrop suggested contacting the City of Lewiston about the recent Lewis and Clark State College student living development in the downtown of Lewiston to see how they handled the parking issue. Planning Director Dickinson responded.

NEW BUSINESS

There was no new business.

ADJOURNMENT

Councilmember Bloom moved, Councilmember Waldrop seconded to adjourn the regular meeting of the City Council.

Motion Carried.

Mayor Johnson adjourned the regular meeting of the City Council at 9:39 p.m.
