

### Pullman Fire Department **Bureau of Fire Prevention**

The Pullman Fire Department is responsible for enforcement of the International Fire Code as adopted by the City of Pullman. Development standards were created by the Bureau of Fire Prevention to deal with specific areas of the code. The main inspection program is a shift level Fire Safety Inspection Program. The purpose of FSIP is simply to ensure that the code is being followed. The Fire Prevention Officer an IFCI certified International Fire Code Inspector, is responsible for the Occurrence of Fire. Another special inspection conducted is Greek Housing for Washington State University, which consists of a special inspection. Fire investigations are required by law through the International Fire Code and the Department's Standard Operating Procedures.
