

Pullman Fire Department proudly serves the citizens of Pullman and is a diverse, vibrant, and progressive community that is home to a world class institution, Washington State University.

The Pullman Fire Department responds to all types of incidents including fires, automobile accidents, and medical emergencies. As public servants we belong to the community and we pride ourselves on being involved in community events and functions.

Fire prevention, investigation, public safety education, fire suppression, emergency

medical services, technical rescue, and hazardous materials responses are all services provided by the outstanding group of employees that comprise the Pullman Fire Department.

Our Mission: *"The Pullman Fire Department is committed to the preservation of life, property and the environment by meeting the public safety needs of our diverse community, and maintaining the highest standards of professional service through continued training and education."*

Inherent to our mission is the desire to protect and enhance the quality of life of our citizens and community by responding quickly, performing with excellence, and serving at every opportunity. All emergency and non-emergency services are developed, maintained, and provided by highly trained professionals dedicated to excellence. Whether an emergency or non-emergency situation, when you deal with Pullman Fire Department personnel, expect excellence!

Sincerely,

Scott A. LaVielles, EFO, CFO, CMO, MIFireE
Fire Chief
