

City of Pullman Public Works Dept.
Engineering Division
Records Section
All drawings are in AutoCAD format.

All of the standard drawings contained herein
rely on at least one other drawing to be complete.

Therefore, when downloading, it is best to download
all of the files into the same directory on your
computer.

The "other" drawings include:

Std-Dwg.dwg (This is the X-reffed title block)
Any *.xlg drawings that may be added in future

As time permits, popular drawings will be added in PDF
and/or WMF format for more flexibility.
