

City of Pullman Public Works Dept.
Engineering Division
Records Section

All drawings are in AutoCAD or an image format.

All of the standard drawings ".dwg" files contained herein rely on at least one other drawing to be complete.

Therefore, when downloading any ".dwg" file, it is best to download the "other" files to the same folder on your computer.

The "other" drawings include:

- Std-Dwg.dwg (This is the background title block)
- Any *.xlg drawings that may be added in future

Many ".dwg" files also have a corresponding ".pdf" version.
